The Counseling Services Center is staffed by professional counselors who provide counseling on a confidential basis as determined by state guidelines. If you become aware that a student may benefit from our services, it is important that you refer the student for counseling in a non-threatening manner.

- Be specific about why you are concerned and why you believe the student could benefit from counseling (e.g., student seems depressed, anxious, suicidal, etc.).
- Avoid generalizing that there is something negative or "wrong" with the student's personality when talking to the student.
- Be aware that the student must have the option of refusing the referral for counseling unless the student appears to be suicidal.
- If the student accepts the idea of referral, call the Counseling Services Center for an appointment while the student is in your office.
- If you judge that the situation with the student to be an emergency or life threatening and that the student should receive assistance immediately, please make it clear to counseling services. We will make schedule adjustments to accommodate the student. You might indicate that you would like an immediate response.
- Finally, after referring a student for an appointment, follow up with him or her to show your support and concern.
